EXAMINER'S AMENDMENT

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Peter Stecher on December 27, 2005.
3. The application has been amended as follows:
 - Cancel claims 28-35 and 39.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose an optical chip comprising, in particular, at least one large mode field size dielectric waveguide to interface with an external optical device, where the at least one large mode field size dielectric waveguide comprises a low index difference waveguide and the optical device comprises a low index difference waveguide as recited in independent claims 1, 36, and 40. Although AAPA, Wojnarowski et al. (US

5,737,458), Hammer (US 4,776,720), Carnevale (US 4,412,722), and Joannopoulos (US 5,955,749) teach similar optical chip structures, none of these references specifically teaches at least one large mode field size dielectric waveguide to interface with an external optical device, where the at least one large mode field size dielectric waveguide comprises a low index difference waveguide and the optical device comprises a low index difference waveguide and nowhere in any of the references are the difficulties of monolithically combining a large mode field size dielectric waveguide, a low minimum bending radius dielectric waveguide, and an optical function address, as noted in Applicant's remarks filed October 11, 2005. As a result, allowance is proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
